

GuideSisters in Rome

GuideSisters in Rome provides licensed tour guide services for a wide variety of itineraries in Rome and the provinces. We specialize in tours of Vatican City and the Vatican Museums, including the magnificent Sistine Chapel. We are certified and authorized Vatican guides who have completed rigorous training to provide professional tours of the smallest country in the world, Vatican City, the home of the Pope.

GuideSisters enjoy helping the many people who visit Rome each year from all over the world to discover the beauty and history of our native city and the surrounding area. In our 15-year history, we have dedicated ourselves to providing our clients with the best and most informative tours available. Our services grew from a personal passion for history, archaeology, and art, and we continually update our information and look for new ways to provide interesting tours of excellent quality.

We are among the select group of tour guides who are officially recognized and authorized by Vatican officials to guarantee that your tour of the Vatican museums will enrich your experience of the incredible artworks and architecture that you see. Only authorized guides can provide you with the comprehensive background and information about these rare works. We are always happy to accommodate requests for those with special needs and to adjust any of our tours to better serve the needs of our clients. We can also arrange for private limousines or minivans upon request.

We are also pleased to announce the upcoming launching of our new website! This will help us to keep our long-time clients aware of new offerings and provide new visitors to Rome with information about the best and most flexible tour options available in this beautiful city. Look for more information about this exciting new venture in the near future!
